

Archival of Work

Prior to leaving it is expected that all data and information generated be archived for future use.

Basically, all your code, design files, papers, and documentation including your thesis and dissertation must be archived.

Archive all information using something similar to the folder structure below.

- 1.Thesis
- 2.Tutorials
- 3.PCB Designs
- 4.LabView
- 5.Simulation
- 6.ANSYS
- 7.Experimental results
- 8.MATLAB_code
- 9.Literature
- 10.Publications
- 11.Weekly Update Slides
- 12.Figures
- 13.Other

Also, be sure to archive all data on a USB Drive for Professor's collection of research.
